

Desiree Daniele

I have served the membership with dedication and integrity as the Vice President of Reps and Equity for the past five years. Prior to this, I served on the committee and acted as school representative. During this time, I have been responsible for the orientation and training of hundreds of our school representatives, so they can carry out the important work of the NSTU and support their colleagues.

As your HFX Co Local President, you can count on me for a collaborative approach and a strong, responsive voice to support the needs of the members. My priorities are to continue to improve working conditions and teacher experience, as well as increase our member engagement so we ensure we remain a united voice.

It would be my honour and privilege to continue my service to the County Members as President to work both for you and alongside you.

**On March 27th vote
